

Bereczki Nándor

Frontend Engineer

nandmc@hotmail.com • linkedin.com/in/en-bee • github.com/nNBee

Professional Summary

Frontend Engineer with 3+ years of experience building modern web applications with React and TypeScript. Experienced in leading frontend development for client projects, integrating REST APIs, implementing OIDC/OAuth2 authentication flows with a strong focus on clean code, performance, and long-term maintainability.

Experience

Frontend Developer <i>Binary Birds Kft.</i>	May 2023 – Present Remote
• Led frontend development for multiple client projects while collaborating on the company’s own products using React and TypeScript. • Built and maintained applications for learning management, document management, and administrative platforms. • Designed reusable UI components and contributed to maintainable frontend architecture, state management, and routing. • Integrated REST APIs and implemented authentication and authorization flows using OIDC and OAuth2. • Refactored and optimized existing React applications using memoization and lazy loading to improve maintainability and rendering performance. • Contributed to reusable internal npm packages and shared frontend tooling distributed through GitHub Packages. • Collaborated closely with backend engineers to design API contracts and deliver end-to-end features. • Developed complex frontend functionality including file uploads, search, dashboards, forms, tables, and video playback.	

Technical Skills

Frontend React, TypeScript, JavaScript (ES6+), HTML5, CSS3
Application Architecture Redux, React Context, React Router
APIs & Authentication REST APIs, OpenAPI, OIDC, OAuth2, Fetch API
Development Git, GitHub, GitHub Packages, npm, Vite, Docker
Additional Node.js, Express.js, Server-side Swift

Education & Professional Development

Law Degree Transitioned into software development through self-directed learning, online courses, and hands-on professional experience.
